ABOUT ME

Senior Data Engineer with 5+ years of experience delivering cloud-scale data platforms on **Microsoft Azure**, specializing in **Databricks, PySpark, and Lakehouse architectures**. Currently working with **Rabobank Netherlands**, designing and optimizing data pipelines processing **1TB+ daily data** with **99.9% reliability**, achieving **40% performance improvements** and **25% cost reduction**. Experienced in **consulting environments**, collaborating with stakeholders to deliver governed, scalable data solutions. Strong expertise in **Azure DevOps CI/CD (YAML)**, **data governance (Unity Catalog, GDPR)**, and enterprise data platforms. Seeking Senior Data Engineer / Databricks Engineer roles in product-based or global data-driven organizations.

SKILLS

Databricks & Big Data

Azure Databricks | PySpark | Spark SQL

Azure Data Platform

Azure Data Factory | Azure Synapse Analytics | Azure Data Lake | Key Vault | SQL DB

Programming

Pyspark | Python | SQL | C#

DevOps & Automation

Azure DevOps | CI/CD | YAML | Git | Terraform | Airflow | Power Automate

Data Governance & Quality

Unity Catalog | Collibra | Kensho | Great Expectations

Data Visualization

Power BI

WORK EXPERIENCE

SENIOR DATA ENGINEER – ACCENTURE (RABOBANK, NETHERLANDS) – 15/01/2024 – Current – BENGALURU, INDIA

- **Designed and optimized end-to-end data pipelines for Rabobank** on Azure Databricks using PySpark and SQL, processing **over 1TB of daily transactional data** while maintaining **99.9% pipeline reliability** within a Medallion Architecture.
- Developed, scheduled, and monitored **Databricks notebooks, jobs, and workflows** for batch and incremental data processing.
- Designed **Lakehouse architectures and data models** to support analytics, reporting, and downstream data consumption.
- **Improved data processing performance by 40%** and reduced cloud infrastructure costs by **25%** through advanced Spark tuning (broadcast joins, caching, partitioning) and query optimization.
- **Implemented enterprise-grade data governance** for sensitive financial datasets using **Unity Catalog**, ensuring **100% compliance with GDPR and banking security standards** across multiple production environments.
- Supported **Rabobank** stakeholders during a **1-month onsite assignment in Utrecht, Netherlands**, collaborating with local Dutch teams.
- **Collaborated** with cross-functional **Dutch engineering teams** to deliver data products **15% faster** while maintaining **98% data accuracy** across reporting layers.
- Automated data platform deployments using **Azure DevOps CI/CD (YAML pipelines)**, enabling version controlled and repeatable releases across environments.

- **ETL/ELT & Architecture:** Built scalable end-to-end data pipelines using **Azure Data Factory** and **Azure Synapse Analytics** to process large-scale datasets with high reliability.
- **Cloud Automation:** Implemented infrastructure automation and **CI/CD** using Terraform and **Azure DevOps**, ensuring consistent deployments across environments.
- Worked directly with **Microsoft internal teams** as a client-facing **Data Engineer**, contributing to Azure-based data platforms and aligning solutions with Microsoft engineering standards and best practices.
- Supported Azure data platform initiatives for a **Microsoft enterprise client**, following Microsoft-recommended architecture patterns, security standards, and performance guidelines.
- **Optimized** SQL queries to improve performance and reduce system load, while providing technical guidance and **mentorship** to support team **knowledge sharing**.

● CERTIFICATIONS

Microsoft Certified: Azure Data Engineer Associate (DP-203)

Databricks Certified Data Engineer Associate

Microsoft Certified: Azure AI Fundamentals

● EDUCATION AND TRAINING

BACHELOR OF TECHNOLOGY (B.TECH) IN COMPUTER SCIENCE Jawaharlal Nehru Technological University (JNTUA)
